

VOCATIONAL BUREAU URGED FOR CAPITAL

Board of Trade Names Committee to Make Investigation of Need of One Here.

Washington probably will have a vocational bureau in the near future. The need of one will be investigated by a committee of the Board of Trade, comprising W. J. Eynon, Walter A. Brown, John L. Weaver, E. C. Graham and Charles I. Corby.

This action is the result of the campaign waged in Washington by Prof. Gustave Blumenberg, of Australia, who believes that vocational studies form one of the great curses of the world, and that fitness should be established according to scientific principles.

Mr. Eynon, chairman of the investigating committee, made the following statement yesterday: "The need of our schools is to perfect the grades from the eighth down, so that those who do not continue to go into the high schools may be fitted for the life work they are to take up. We must find a way to discover the field to which each pupil is best fitted, and I believe that this should be done by the time the pupil has reached the eighth grade."

President E. H. Droop, of the Board of Trade, has named the following members upon the special committee to co-operate with the vocational organization in the raising of funds for the George Washington memorial: W. T. Gallinger, chairman; Milton E. Allen, Theodore W. Noyes, S. W. Woodward, and W. S. Corby. He has also named Richard B. Watrous as delegate to represent the Board at the national convention on city planning to be held in Chicago, May 5 to 7, and William Phelps Eno delegate to the conference on international arbitration at Lake Mohonk, New York, on May 14 to 16.

The monthly dinner of the membership committee will be held in the Hotel Continental tomorrow night, and a meeting of the ad hoc committee in the rooms of the Board on Saturday night.

"Cat Teeth Trust."

NEW YORK, March 25.—Investigation is being made into an alleged "cat teeth trust." It is said that teeth of cats are extracted and sold at high prices to South Africans who use them as jewelry.

SNIFFLING MACHINES

Catarrh Sufferers are Nothing but Hawking, Sniffling and Blowing Machines, Says an Authority.

Is it possible that in these days when cleanliness and sanitary reform is being preached in the churches, schools and at public gatherings, that thousands of people will continue to suffer from catarrh, when there is an absolutely certain remedy at hand?

HYOMEI (pronounced High-o-mey) is the remedy. It is a pleasant and antiseptic medication which you place in the inhaler. Breathing through the inhaler charges the air with germ-killing antiseptic. Catarrhal discharges, sniffles, foul breath, watery eyes and the formation of crusts in the nose are promptly relieved by breathing this medicated air.

It is guaranteed to do it, or money back.

Entirely Cured by HYOMEI.

Having suffered from catarrh for about two years, and having tried numerous remedies without any satisfactory results, I finally tried HYOMEI, and am glad to state that after using about one and one-half bottles, I am entirely cured. I have recommended it to others with satisfactory results." C. M. Lindsay, M.D., S. D.

A complete HYOMEI outfit, consisting of a strong, hard rubber pocket inhaler and a bottle of HYOMEI costs only \$1.00, and extra bottles, if after-ward needed, are only 50 cents each at O'Donnell's drug store and drug-sists everywhere.

Use HYOMEI for Bronchitis, Coughs and Colds, Croup of Infants, and any inflammatory disease of the breathing organs.—Advt.

SPEED IS URGED IN NAMING COMMITTEE

President Asked At Conference Today to Name Members of Industrial Commission.

Urging the President to select an industrial commission whose investigations and report into the industrial situation in this country would challenge the attention, not alone of the United States, but of the civilized world, and would be accepted as authoritative, a committee from the Committee on Industrial Relations waited on President Wilson today to talk over with him his appointment of this commission.

The committee was headed by Dr. Samuel McCune Lindsay, of Columbia, and included John M. Glenn, and Dr. W. J. Kerby, of Catholic University. A. J. McKelway and Rabbi Wise are of the committee, but were not present.

The President was urged to name the three members of the commission who will represent the public from among the ablest economists and students of sociological and industrial conditions in the country. A number of names were suggested, among them Dr. Devine, of Columbia, Louis D. Brandeis, Mrs. Florence Kelly, Father Ryan, of St. Paul, and a number of others. The commission is to be composed of nine, three representing the employers, three the employed and three the general public.

It was pointed out to the President that the commission ought to be named promptly in order that it may get to work. The President assured his callers he would soon name his appointees. President Taft named a commission but his appointments were not confirmed and some of them were objected to as unsatisfactory.

President Wilson was urged by Dr. Lindsay and the committee to reappoint Dr. Charles P. Neill as Commissioner of Labor and Miss Lathrop as head of the Children's Bureau. It is understood that both will be retained.

Southern Coal Rates Are Held To Be Just

Rates of \$1.20 per ton on coal from western Kentucky and Alabama mines were today declared "reasonable" by the Interstate Commerce Commission.

Rates imposed upon shipments of coke from points in Virginia, West Virginia and Pennsylvania to St. Louis, Mo., by railroads doing business between those points were likewise found just.

"MAN OF MILLIONS" IS BACK IN ASYLUM

Effort to Get \$92,000,000 From Treasury Causes Arrest of Escaped Patient.

Failing in an effort to induce officials of the Treasury Department to cash two checks for him, one for \$20,000,000 and the other for \$2,000,000, Clifford C. Kelsey is back today in the Government Hospital for the Insane.

Kelsey, who has a patient at the institution since July 19, 1887, eluded the vigilance of the guards at one of the gates a few days ago and left the grounds without attracting any attention. Yesterday he appeared at the Treasury Department with his pockets filled with checks for amounts large enough to bankrupt most of the multi-millionaires of the country.

Officials of the department turned

**DOES YOUR SKIN
ITCH AND BURN?**

Resinol Will Heal It Quickly, Easily and at Little Cost.

If your skin itches and burns with eczema or other tormenting, unsightly skin trouble, simply wash the sore places with Resinol Soap and hot water, dry, and apply a little Resinol Ointment.

The itching stops instantly, you no longer have to dig and scratch, sleep becomes possible, and healing begins at once. That is because the soothing, antiseptic Resinol medication strikes right into the surface, arrests the action of the disease and lets the tortured, inflamed skin rest, restoring it to perfect health quickly, easily, and at little cost.

Resinol Soap and Resinol Ointment are also specially effective in even the stubborn cases of pimples, black-heads, dandruff, sores, and piles. Prescribed by doctors for eighteen years, and sold by every druggist in the United States. For generous sample of each, write to Dept. 12-S, Resinol, Baltimore, Md.—Advt.

I PROVE MY CLAIM

Just a few days ago a young lady came to me and said, "Doctor, I have visited several dentists in this and other cities at various times to have troublesome teeth treated. I am now coming to you because several friends have said that your work is done absolutely without pain, and if such a thing is possible, I want to avoid the pain and trouble which have invariably accompanied treatment heretofore."

To make a long story short, I filled two teeth and crowned another for her, and today she is telling her friends how SKILFULLY and PAINLESSLY the work was done.

If your teeth trouble you I want you to let me examine your teeth TODAY. IT WILL COST YOU NOTHING, and if I do any work it will be WITHOUT PAIN, at LOWEST PRICES, and, if you wish, I will arrange a system of EASY PAYMENTS.

FILLINGS in Gold, Silver, Platinum, and Porcelain. 50c to \$1 Crown and Bridge Work. \$3, \$4, and \$5
